

Mini Project 3 Instruction

After finishing the required reading in Unit 6, you should create a web page named **mini_project_3.html** and upload the file to your www directory on the bengal server. Don't forget to validate your page using <http://validator.w3.org/>. If your page passed validation, you can add the icon from W3C to show that it passed. **Please re-validate your page after adding the icon.** Read the rubrics carefully below about the requirements for this assignment. **This assignment is due on July 3rd at 11:45 pm.**

I. Content of this Assignment

1. This **mini_project_3.html** page should have at least the following,

- A relative link from the mini_project_3.html page to your Assignments Page.
- At least 1 table with multiple rows and columns on the web page.
- At least 5 comments in your source code to demonstrate your understanding of the use of tags. Refer to page 3 on Unit 6 Instruction for examples of commenting.
- At least 20 unique tags in the source code. If your page has the basic html structure (i.e. html, head, title, meta, and body tags), it will already contain 5 unique tags. By including a table on your page, you will have at least 3 more (i.e. table, tr, th/td tags). It's not hard to come up with 20 tags!!!
- xhtml transitional 1.0 compliant.

2. Your **assignments.html** page should be updated to have at least the following,

- Add a relative link for the mini_project_3.html on your assignments.html page.
- Correct your assignments.html page if you had any errors, and update your assignments.html page on the server.

3. You're also required to participate in **Discussion 2- Good/Bad Website Example (due by July 6th)**. Please go to the Topic II Discussion Forum for detailed instruction.

If you have any questions or would like mentors' feedback, upload your work to your bengal space and post the URL of your page to the "Mini Project 3" discussion board.

II. How to Submit Your Assignments Page

When you are finished, you will need to:

- Upload your mini_project_3.html page, assignments.html, and associated media file(s) to your bengal space,
- Go to the Assignments tool, select mini project 3 from the list, type the URL of your mini_project_3.html page in the Assignment Text box.

III. Evaluation

Your mini project two will be graded based on the following criteria,

- Have at least one table with multiple rows and columns on the page.
- Have at least 5 thorough comments in your source code.
- Have at least 20 unique tags.
- Have the page complied with xhtml 1.0 transitional specifications.
