Mini Project 2 Assignment: Accessibility

I. Content of the Assignment

To complete this assignment, you need to

- Validate your Assignments Page and mini_project_1.html page using HTML Validator (http://validator.w3.org/), and add the "valid xtml1.0" icon to the pages that validate. Note: You will be prompted by the instruction of adding the icon once the page passed validation. **Remember to validate your pages again after adding the icon or any codes in your source code. Make sure the pages that you upload to bengal space pass the validation.**
- Post questions to the mini project 2 discussion board if you have any.

Here are some tips for making page validate and accessible,

- Use the XHTML checklist provided in **unit 3**,
- Add the necessary **meta tag** in the head section, and
- Make sure that you have **width, height,** and alternative text using the **alt** attributes of the image tag if you have images on your page.

When you are done with this assignment, you should:

- Know how to validate your web pages and make them XHTML-complaint
- Have better understanding about accessibility issues in web development

II. How to Submit Your Mini Project 2 Assignment

When you are finished, you will need to:

- Upload your updated Assignment Page and mini_project_1.html page to your bengal space,
- Go to the Assignments tool, select Mini Project 2 assignment from the list, type the URL of your Assignment Page and mini_project_1.html page in the Assignment Text.

If you have any questions or would like mentors' feedback, upload your work to your bengal space and post the URL of your file to the "Mini Project 2" discussion board.

III. Evaluation

Your Mini Project 2 assignment will be graded based on the following criteria,

- Validating your assignment page using HTML validator
- Validating your Mini Project 1 assignment using HTML validator

Good luck!
